## Identification and Transactional Solutions Supplier

INTEGRATED ID CARD PRODUCTION SYSTEMS

Your first choice

DATA CARTE CONCEPTS offers a variety of systems to meet all of your identification card production needs. Our highly competent team preselects, from the various manufacturers that we represent, equipment of the highest quality and best reliability. In addition, we offer assistance to install and integrate them into new or existing environments depending on clients' specific needs.

Tailored for your needs for a successful program!

Thanks to its great expertise in the matter, **DATA CARTE CONCEPTS** is constantly involved in the search for technological advances to offer identification solutions that combine ease of use, a unique design and unmatched performance.

All the equipment we offer are designed to produce high quality photos, graphics, barcodes and text, in addition to being integrable with software we offer or those that you already use. We provide different types of media such as standard blank plastic cards, barcode and magnetic stripe cards, contact and contactless smart cards, and proximity cards.

Additionally, we offer both stand-alone and integrated systems from recognized manufacturers that we are proud to represent. Indeed, our catalog includes products from NBS Technologies, Entrust, Fargo, Evolis, Zebra and Magicard just to name a few.

Innovation - Simplicity – User-friendly

The card production software offered by **DATA CARTE CONCEPTS** provides customers in all industries the tools necessary to easily create various card formats, enter data, capture images, and print monochrome or color cards.

Through our consulting and development service, we can also add functionality to basic software or create custom applications, such as links to other software or databases. This service results in tailor-made applications that perfectly meets your software needs.

DATA CARTE CONCEPTS PROVIDES AND INTEGRATES IDENTIFICATION AND TRANSACTIONAL SOLUTIONS.

WE ARE AN INNOVATIVE COMPANY KNOWN, SINCE OUR INCEPTION, FOR OUR PROJECT-SPECIFIC SOLUTIONS.

OVER THE YEARS, WE HAVE ACQUIRED AN ENVIABLE REPUTATION THAT MAKES US A LEADER IN THE IDENTIFICATION MARKET.

TECHNOLOGICAL DEVELOPMENT AND NEW IDENTIFICATION METHODS

We offer all the products necessary for photo and signature capturing for ID cards.

DATA CARTE CONCEPTS only preselects and recommends the best-suited capture equipment for each customer's requirements, whilst taking into account its integration into a complete system and the constant technological evolution.

Flawless information capture!

In order to compensate for errors and the slowness of entering information manually, **DATA CARTE CONCEPTS** offers printers and barcode readers that allow the identification of individuals or goods, by retrieving the information by optical reading.

Stakeholders of our solutions

DATA CARTE CONCEPTS offers a wide range of supplies and accessories from different manufacturers to meet your needs: plastic cards, printing ribbons, cleaning kits, labels for barcode printers, identification accessories including clips, retractable badge reels, lanyards and cords, badge holders and ink rollers.

DATA CARTE CONCEPTS

IS THE LOGICAL CHOICE FOR

ALL OF YOUR NEEDS FOR

IDENTIFICATION SUPPLIES!

EMBOSSING SOLUTIONS THAT MEET CUSTOMER EXPECTATIONS

DATA CARTE CONCEPTS offers a wide range of embossing systems. We are proud to represent several reputable brands, which allows us to offer the most appropriate and tailor-made solution possible.

These solutions can range from the basic, small volume embosser ideal for a wide range of applications to more advanced, higher volume solutions. Embossers can include other technologies such as barcode printing, magnetic stripe encoding, smart card personalization, laser printing, four-color printing, and hologram application. We also offer machines designed specifically for embossing metal plates of various shapes and sizes.

We also distribute robust card imprinters designed to print various types of forms. Simple, efficient and quiet operation makes them benchmarks. We also provide ink rollers and replacement parts for these devices.

FOR ALL TYPES OF EMBOSSING, **DATA CARTE CONCEPTS** HAS THE PRODUCT THAT FITS YOUR NEEDS!

DATA CARTE CONCEPTS TO THE RESCUE

Our card production department can meet your needs.

DATA CARTE CONCEPTS will take care of the design and production of cards for you, whether they are employee cards, student cards, membership cards, access cards, loyalty cards, promotional cards or high quality cards having banking or telephone characteristics. We offer a wide variety of cards of different thicknesses, different colors and with different security options, in order to produce cards that will meet your needs.

DATA CARTE CONCEPTS is dedicated to providing a tailor-made identification solution with professionalism and creativity. We work with you to ensure your satisfaction, from card design to delivery. We provide high quality, durable cards while offering fast service and competitive prices.

This makes **DATA CARTE CONCEPTS** an attractive resource and a natural choice for card productions.

YOU WANT CUSTOM CARDS, BUT DO NOT HAVE THE NECESSARY EQUIPMENT?

YOU HAVE AN OVERFLOW OF INTERNAL PRODUCTION DURING A PEAK PERIOD?

WITH **DATA CARTE CONCEPTS**, YOUR CARD PROGRAMS ARE IN GOOD HANDS!

SERVICE AND AFTER-SALES SUPPORT

Exclusive to Data Carte Concepts!

What sets us apart from the competition is the quality and reliability of our after-sales service. This is the reason why our customers have trusted us for many years. We support our clients throughout the process, from the analysis of intrinsic need to project management and after-sales support.

DATA CARTE CONCEPTS delivers and installs your new software and equipment, integrates them into your existing systems and trains your staff. We develop the training session based on your project's needs. Moreover, having expertise in software development, we can work with your IT staff to develop specific applications.

Our qualified staff can carry out on-site or workshop repairs. We stock a complete inventory of original parts from different manufacturers. We have an efficient service call system that allows us to take service calls and quickly dispatch the nearest qualified technician to you. This process assures an optimal repair of any equipment entrusted to us.

DATA CARTE CONCEPTS also offers maintenance and service contracts (on-site, in our workshop or by technical support by phone) which are designed to meet the requirements of the specific environments of each market and the expectations of each customer. Our expertise in this area will ensure you a fast and efficient service. We will always be here to help.

When **DATA CARTE CONCEPTS**' team of experts professionally install and do maintenance on your ID card systems, you minimize unplanned downtime and, therefore, maximize your return on investment. Either way, you will get top quality service.

CONSULTING AND
IT DEVELOPMENT SERVICES

Custom advice and solutions for your needs!

In order to be able to provide fully integrated solutions to its customers, **DATA CARTE CONCEPTS** offers consulting services for the design, programming and operation of application software and databases. With over twenty years of industry experience, our team is skilled and committed to helping you get the most from your data and other IT resources.

The services and expertise that we offer include the design of new software and/or databases based on a complete analysis of your needs, from the design of a routine to create a bridge between two incompatible systems to the creation of a complete system that meets a set of specific needs. In order to maximize their use, we offer maintenance contracts for your software and databases.

Our experience includes a large number of projects carried out in a portfolio of varied organizations. It allows us to offer realistic solutions that match the goals and constraints of our clients.

Amongst our clientele, we find universities, governmental and para-governmental institutions, non-profit organizations as well as private corporations.

OUR EXPERTISE AT YOUR SERVICE

Partner of your success

DATA CARTE CONCEPTS is a company whose mission is to distribute, integrate and support identification and transactional systems. **DATA CARTE CONCEPTS**, a Montreal-based Quebec company, has acquired an enviable reputation over the years. Our client list includes prestigious public and para-public sector institutions, as well as public and private corporations and non-profit organizations.

We are an innovative enterprise known, since our inception, for our project-specific solutions. Our team has extensive experience and our approach differs from the competition by the fact that we can add value to the client's investment, and this in several ways.

Another particularity of **DATA CARTE CONCEPTS** is that it offers a turnkey approach, thanks to a wide range of products and solutions available as well as a structured and efficient network of partnerships and alliances. This approach makes it possible to meet all the needs for a particular project.

DATA CARTE CONCEPTS is full of projects and intends to remain the benchmark organization in this sector. To do this, our rule is simple: provide a solution that meets the customer's needs in order to ensure their satisfaction.
